Editor's Report

After three years as editor of Imprint, this issue will be my last. The new joint editors from now onwards will be Nicola and Dean Wise, fellow Y.M.G. members and extremely competent Imprint workers. I am sure in their capable hands, the publication cannot fail to flourish. I have thoroughly enjoyed working on Imprint and hope that the new editors find it as rewarding. Potential contributors for No. 10 1988 should note the new address (printed below) for their articles - keep them coming!

Promising the results of two long term Y.M.G. traps in full for this issue was, perhaps, a little ambitious - however the Blackwoods 13 year report is included and Hopewell House Farm report will appear in No. 10. Sorry to keep you in suspense!

I would like to thank all the people who have supported Imprint - contributors, helpers, sponsors and subscribers - and hope they will show Nicola and Dean the same encouragement.
